

Hamadan University of Medical Sciences

Overall second goal:

The national food security document of the country:

This program has been compiled based on the high-level documents and especially the fifth program of economic and social development of the country. Therefore, it is expected that by using a common language and the collective commitment of internal and external stakeholders in the field of goals and strategies to improve nutrition and food security. In addition, financial resources and requirements, including the structure of the work system, should be supported.
